

PLUMBING AND HEATING TRADE DAY PROVES A WINNER !

A toast to a great trade day

Thanks to everyone who attended our Plumbing and Heating Breakfast morning on Wednesday 7th October. It was a great success, and not just because of the free snacks and hot drinks we were giving away!

We owe a big vote of thanks to our friends at **MAIN BOILERS AND CYLINDERS**, **JOHN GUEST SPEEDFIT**, **BRETT MARTIN BUILDING PRODUCTS** and **CT1 SEALANTS AND ADHESIVES** who all supported us by sending representatives to impress us with their latest products and essential technical advice.

Brett Martin are a much in demand brand for us for both their building and underground ranges, as have **Speedfit** whose products are so easy to install for both the professional and DIY markets. Our offer of a **Main Boiler and Unvented Cylinder** at just £925 excl VAT was very well received.

The demonstration of the **CT1 Sealant and Construction Adhesives** was impressive. It really is a unique development in bonding and sealing almost anything in both indoor and outdoor applications.

Prizes in store

We were delighted to make the day evening more exciting by giving away T Shirts and travel mugs plus a bottle of champagne and three Irwin Professional Toolboxes simply for guessing the number of Brett Martin fascia brackets in our chamber base. There were a large number of entries so we have yet to determine the winners but will announce the names soon.
